

Homeschool Passion Planner

by
Maria

I would like to thank Maria for making this brilliantly simple and easy to follow Passion Planner.

She explains how it works here:

"The Passion Planner is an agenda very popular with moms, college students, and teachers. <http://www.passionplanner.com/>

You can doodle, add stickers, and much more. I decided to do a copycat version for the kids because the one they have is very complicated. I wanted to be simple as a first step for the real thing, I also added space to add a weekly affirmation and a weekly inspirational quote that you can add or have them write it themselves.

Here are some links for free printable stickers
